EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel S. Kriegsman on 02 April 2004.

The application has been amended as follows:

In the specification,

Page 19, paragraph 3, line 8, insert "(polytetrafluoroethylene)" after --TEFLON--.

In the claims,

Claim 6, line 3, delete --TEFLON-- and replace with "polytetrafluoroethylene"; and

Claim 16, line 3, delete --TEFLON-- and replace with "polytetrafluoroethylene".

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The amended claims include language which requires the pivot plate in the heat transfer apparatus to pivot between a first & second position and where the plate is tangential to the conveying mechanism's arcuate path. Good, Jr. (US Patent No. 5,188,696) discloses a wrap around label machine which uses a flat pressure pad (62). However, there is no reason or suggestion in Good, Jr. to have the pressure pad (62) positioned tangential to the arcuate path of the turret (11). The plate (60) which holds the pressure pad (62) is positioned tangential as can be seen in Figures 7-11, but the pressure pad (62) is positioned to contact the article (23) by being in the articles path. Wochner (US Patent No. 3,709,755) discloses a labeling apparatus where the applicator (27) is positioned tangential to the arcuate path, but the applicator is a roller (27) carried on a plate (28), thus the contact surface of the

Art Unit: 1734

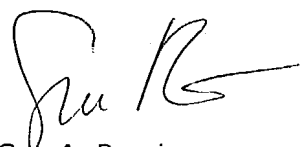

article is not flat. Furthermore, there is no motivation for using a flat contact surface in place of a roller in Wochner, because of the structure of the conveyor mechanism. There is also no motivation for altering the position of the pressure pad in Good, Jr. based on the position of the roller in Wochner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
